

## A Saskatchewan-First Integrative, Multidisciplinary Health Campus

1.

A hub of excellence designed for patient-centered healthcare delivery, relocating services away from large hospitals.

2.

Expanded range of services creating a more comprehensive, one-stop, patient-focused healthcare solution.

3.

Educational integration creates a vibrant ecosystem where learning, innovation, and healthcare delivery intersect and thrive.

15 acres of master planned, integrated health and wellness space located in the heart of Saskatoon at College & Preston.

## Goals to Address Critical Healthcare Issues

- 1. Work to help close the gap for people lacking a primary care provider**
- 2. Ease capacity constraints and reduce surgical wait times**
- 3. Synergize care through connected healthcare spaces with real-time collaboration between providers**

## Blueprint for the Future of Healthcare

The Saskatchewan Integrated Health Quarter is **a landmark, multidisciplinary healthcare development** to be located at College & Preston in Saskatoon, directly adjacent to the University of Saskatchewan and Royal University Hospital.

**Designed as a provincial first, the Health Quarter reimagines how care is delivered by co-locating specialists, diagnostics, and services along shared care pathways – creating a seamless, collaborative environment for providers and patients alike.**

This is more than a building – it's a blueprint for the future of healthcare in Saskatchewan: one that enhances access, streamlines collaboration, and **strengthens the province's healthcare system** through private-sector innovation and public-sector alignment.
